Francisca's vineyard only has 4.3 acres planted in Syrah producing fantastic Syrah. The Eastern most two acres are much rarer, mostly sand. This sub-area of the vineyard produces the clusters we reserve for the Princess Syrah. In 2013 both open and closed fermentation techniques were conducted. Two different yeast strains were used and the open fermentation was conducted at a higher temperature. Pressing occurred after an average of 27 days. The "free run" was directly transferred into 228L barrels and aged for 16 months.

Cassis blackberry and leathery cedar spice rule the nose. The palate is chewy cassis, plum and ripe blackberry encased in a framework of cedar and spice. Blackberry and hints of vanilla latte round out the lasting finish. Enjoy for many years to come!
