2015 Moonspell Cabernet Sauvignon

2015 was a warm year which resulted in harvest starting earlier than usual and finishing three weeks earlier than we ever experienced. Due to a freeze in November of 2014, our yields were lower than usual resulting in intense dark wines. To determine ripeness we rely on both chemical analysis and flavor analysis to select our harvest date. Our cabernet sauvignon clusters were hand harvested, hand sorted, destemmed and lightly crushed. We only use gravity to move the crushed grapes and juice. No pressed wine is used in making the Moonspell. The free run juice is barrel aged for 18 months and thoughtfully blended by our winemaking team just before bottling.

The color is a deep dark garnet with aromas of blackberry pie complimented by a dusting of toasted oak. The curtain opens with dancing cherries on the first sip mingling with mouth-coating tannins, blackberry and a hint of tobacco.
